

GROW NEW SOYBEAN VARIETIES FOR BETTER YIELDS

Maksoy 1N

Early maturing
Resistant to soybean rust
Resistant to pod shattering

Year of release: 2004
Maturity: 95 days
Yield: 2 - 3 tons / ha

Seed size: Small
Protein content: 41%
Oil content: 17%

Maksoy 2N

Excellent Appearance
Tolerant to soybean rust
Resistant to pod shattering

Year of release: 2008
Maturity: 100 days
Yield: 2 - 3 tons / ha

Seed size: Large
Protein content: 38%
Oil content: 20%

Maksoy 3N

Tolerant to soybean rust
Resistant to pod shattering
Resistant to lodging

Year of release: 2010
Maturity: 95 days
Yield: 3 tons / ha

Seed size: Large
Protein content: 36%
Oil content: 22%

Namsoy 4M

Resistant to soybean rust
Tolerant to pod shattering
May shatter if harvesting is delayed

Year of release: 2004
Maturity: 105 days
Yield: 2 - 3 tons / ha

Seed size: Large
Protein content: 43%
Oil content: 20%
